Chairman & CEO's Statement

PROSPECTS

Our vision is to become a world class corporation “with excellence in our products, people and profitability” for the benefits of the host nation and all our shareholders.

The vision may be achieved through the implementation of a strategy which include firstly to increase revenue on the back of the successful completion of the Company's initial public offering; secondly, to increase market share of customer from Malaysia, Singapore, China, Vietnam and Thailand by leveraging on our tax advantage; and thirdly, to establish a strong brand through nation building exercises.

The Company aims to become a world-class Indo-China casino operator and to tap the fast growing economies of Thailand and of Vietnam with a total population of around 155 million people and a combined GDP of approximately US\$277 billion. The Company is also looking at the group of potential customers, namely the 6 million Chinese population, whose individual income are estimated to fall within a bracket of US\$100,000 and US\$1 million.

We do hope that, one day, the gaming revenue from Phnom Penh will be a small part of the global gaming revenue.

Property price in Phnom Penh has surged notably over the past few years. We intend to capitalise on the robust property market in Phnom Penh and expand NagaWorld to house a total of 700 rooms and 300 tables. We also intend to renovate the Hun Sen Garden located in front of NagaWorld and upgrade the motor court situated between the ground floor of the hotel and casino wings of NagaWorld into a grand hotel lobby. Part of the carpark block may be developed to house some of the additional rooms, a discotheque and a rooftop swimming pool. The addition of these features will not hold up the completion schedule of the 508 rooms and 176 tables.

OUR APPRECIATION

The Board would like to express their appreciation to our employees for their good work and dedication and to our shareholders, customers and suppliers for their continued support.

BUSINESS REVIEW

Our operations continued to benefit from the political stability and economic expansion of Cambodia for the financial period under review. The number of visitor arrivals to Cambodia increased by approximately 25% to around 1.0 million visitors for the six months ended 30 June 2007 from around 0.8 million visitors for the same period in 2006. (*Source: Ministry of Tourism, Cambodia*)

For the six months ended 30 June 2007, casino operations continued to be the major revenue contributor for us and brought in revenue of approximately US\$64.7 million, representing over 99% of our total revenue. Revenue derived from casino operations was approximately US\$41.8 million for the same period in 2006. The majority of the revenue from the hotel wing was inter-divisional and was eliminated on consolidation. The increase of approximately 54.8% in revenue from casino operations was attributable mainly to the higher revenue contributions from our specialised tour group (STG) floor tables and public floor tables for the six months ended 30 June 2007. We launched a number of programmes, which were well received by the market as reflected by the increase in number of customers who joined the programmes and the number of visitors who visited our casino for the six months ended 30 June 2007. Our table limits also increased from US\$18,000 to US\$50,000 to cater for players with higher check-ins and deposits. Cambodians holding foreign passports also contributed to the increase in revenue for the period under review.

Management Discussion & Analysis

STG Floors

Revenue from STG floor tables increased notably by 91.0% to approximately US\$44.6 million for the six months ended 30 June 2007 from approximately US\$23.3 million for the same period in 2006. This was the result of the increase in number of quality STG players, the increase in the check-ins and the increase in number of tables and table limits. It is noteworthy that revenue from STG floor tables accounted for approximately 68.8% of our total revenue for the six months ended 30 June 2007.

There was a notable increase in the number of STG players who visited our casino. For the six months ended 30 June 2007, 9,192 STG players visited our casino compared to 6,704 STG players for the same period in 2006, representing an increase of 37.1% in the number of STG players. We increased the number of STG tables to 40 tables for the six months ended 30 June 2007. Levels 5, 6, 7 and 8 of the entertainment wing of NagaWorld were completed.

The total check-in amounts deposited by STG players increased by 57.8% to approximately US\$233.7 million for the six months ended 30 June 2007 from approximately US\$148.1 million for the same period in 2006. The average check-in amounts per STG player was approximately US\$25,424 per STG player for the six months ended 30 June 2007 and US\$22,091 for the same period in 2006.

Public Floor Tables

Public floor tables generated revenue of approximately US\$18.6 million for the six months ended 30 June 2007 compared to approximately US\$17.0 million for the same period in 2006. Revenue derived from 44 public floor tables accounted for approximately 28.7% of our total revenue for the six months ended 30 June 2007. The buy-in amounts made by public players increased to approximately US\$68.0 million for the six months ended 30 June 2007 from approximately US\$64.7 million for the same period in 2006.

Gaming Machine Stations

Under the existing arrangements for provision of gaming machine stations in our casino, we will continue to receive fixed income payments in aggregate of US\$10 million for the four years ending 30 June 2009. We are not required to pay rental costs for the gaming machine stations under the arrangement.

For the six months ended 30 June 2007, revenue derived from the gaming machine stations was approximately US\$1.5 million, same as that recorded for same period in 2006.

As at the end of June 2007, 211 gaming machine stations, the same as the number of gaming machine stations for the same period in 2006, were available for patronage in our casino.

Gross Profit

For the six months ended 30 June 2007, cost of sales increased to approximately US\$31.0 million from approximately US\$15.1 million for the same period in 2006. The increase in cost of sales was attributable to the rise in rollings achieved by STG players and other players, resulting in higher commissions paid to STG operators and local operators. The rise in related expenditure, such as costs for accommodation, food and beverages and rebates for air tickets also added to the cost of sales. For the financial period under review, gross profit increased by 25.7% to US\$33.7 million from US\$26.8 million for the same period in 2006.

The Company recorded gross profit margins of 52.1% for the financial period under review against 64.0% for the same period in 2006.

Management Discussion & Analysis

Operating and administrative expenses

NagaWorld requires additional trained professionals to manage the gaming and hotel operations and other entertainment facilities. We have recruited new talents to cater for our business expansion. Staff costs rose to approximately US\$5.8 million for the six months ended 30 June 2007 from approximately US\$3.4 million for the same period in 2006 on account of the increase in number of employees to 1,564 employees as at 30 June 2007.

Administrative expenses increased to approximately US\$6.6 million for the financial period under review from approximately US\$3.1 million for the same period in 2006. The rise can, to a certain extent, be attributable to the payment of an insurance premiums by the Group for the purpose of hedging country risks in Cambodia as part of the IPO process, completed in October 2006. No such insurance premiums were paid for the first six months in 2006.

For the six months ended 30 June 2007, amortisation expense of approximately US\$1.8 million was incurred in relation to the amortisation of the premium for extension of the exclusivity period of the Casino Licence, which is the same as that recorded for the six months ended 30 June 2006.

Finance costs

We did not incur finance costs as there were no significant financing arrangements for the six months ended 30 June 2007.

Net Profit

For the six months ended 30 June 2007, net profit increased to approximately US\$20.1 million from approximately US\$17.5 million for the same period in 2006, representing an increase of 14.7%. Investments and recruitment for new staff are required prior to full completion of NagaWorld and therefore initial outlays have been made. In view of the above, the Company recorded net profit margin of 31.0% for the six months ended 30 June 2007 against 41.8% for the same period in 2006.

Earnings per share were approximately US cents 0.97 (HK cents 7.6 per share) for the six months ended 30 June 2007 compared to US cents 1.29 (HK cents 10.1 per share) for the same period in 2006. With the increase in number of shares after completion of the IPO, earnings per share decreased for the six months ended 30 June 2007 despite the increase in net profit.

Management Discussion & Analysis

PROSPECTS

Our corporate vision is to become a world class corporation “with excellence in our products, people and profitability” for the benefits of the host nation and all our shareholders.

Our mission and strategy are, first to increase revenue on the back of the successful completion of the IPO; secondly, to increase market share of customer from Malaysia, Singapore, China, Vietnam and Thailand by leveraging on our tax advantage; and thirdly, to establish a strong brand through nation building exercises.

We do hope that, one day, the gaming revenue from Phnom Penh will be a small part of the global gaming revenue. Our casino, being the key casino located at the heart of an ASEAN city, our strategy is to focus on existing gaming business and to ‘squeeze’ more value from our existing operation in Phnom Penh.

The Company aims to be vigilant of and responsive to opportunities arising from the wave of liberalisation of the casino industry in Asia, especially that of Thailand and of Vietnam. The Company will consolidate its strong foundation with a view to becoming a world-class Indo-China casino operator with strong corporate governance, and an ability to maximise benefits from the fast growing economies of Cambodia’s immediate neighbours, Thailand and Vietnam. The two countries have a combined population of around 155 million people and a combined GDP of approximately US\$277 billion. The Company also aims to tap on a group of 6 million Chinese population, whose income is estimated to fall within a bracket of US\$100,000 and US\$1 million. We also envisage a significant increase in the number of visitors from China in the years to come.

Full completion of NagaWorld including 508 rooms, 176 tables and other facilities is expected to be within budget and schedule.

Property price in Phnom Penh has increased substantially over the past 5 years, likely as a result of political stability and an increase in the number of foreign investors. A parcel of land next to NagaWorld has been offered at approximately US\$2,300 per m².

We intend to capitalise on the buoyant property market in Phnom Penh and increase the total number of hotel rooms to about 700 rooms and the number of gaming tables to about 300 tables. We also intend to renovate the Hun Sen Garden located in front of NagaWorld. The motor court situated between the ground floor of the hotel and casino wings of NagaWorld will be converted into a grand hotel lobby. It is anticipated that additional floors may be added to the North Tower and the South Tower of the hotel wing. Part of the carpark block may be developed to house about 100 rooms (the additional rooms which are intended for use by our staff), a discotheque and a rooftop swimming pool. The construction costs of these additional features to the NagaWorld complex are not covered in the budget of US\$90.5m referred to in the IPO prospectus. The addition of these features will not hold up the schedule of completion of the 508 rooms and 176 tables.

Independent Review of Investment Risks in Cambodia

Political and Economic Risk Consultancy, Ltd. ("PERC")

 Central
 Hong Kong

TO THE BOARD OF NAGACORP LTD.

We have assessed and reviewed the investment risks in Cambodia and in arriving at our findings below, taken into account, amongst others, domestic political risks, social instability risks, institutional quality, accountability and standards, human resource risks, infrastructure and environmental risks and external political risks. Based on the assessment and review carried out in the last quarter of 2006 and February 2007, we summarised our findings below:

We quantify investment risks in Cambodia through the measure of socio-political risks which in turn comprised the following variables:

- Domestic political risks
- Social instability risks
- Institutional quality, accountability and standards
- Human resource risks
- Physical factors such as infrastructure and environmental risks
- External political risks

Each of these variables is itself made up of a number of sub-variables relating to specific aspects of the category being assessed. The index score for the investment risks in Cambodia is calculated by adding the products of the individual grades for the specific variables multiplied by their specific weights in percentage terms. We have treated each variable and sub-variables as having equal importance and weights.

The maximum possible risk rating is 10 while the minimum is zero, being the most favorable grade possible. The overall risk rating for Cambodia is 5.32, which is in our view moderate.

Independent Review of Investment Risks in Cambodia

THE POSITIVE DEVELOPMENTS

- Tourism is growing rapidly and shows every sign of continuing to do so, with some of the most rapid growth being from China, Korea and Vietnam.
- Cambodia's external relations are excellent, particularly with countries that will be the leading sources of NagaCorp's client base namely, Malaysia, Singapore, China and South Korea.
- Both the current and future governments of Cambodia will treat tourism as a pillar on which to build the economy's development. They will avoid actions that hurt the tourism industry and major foreign investors in this industry.
- Future exchange rate changes in China and Korea should increase the spending power of NagaCorp's main client base and stimulate growth.
- NagaCorp's profile, which was already high in Cambodia in view of its size compared with other foreign direct investments in a pillar industry like tourism, has been raised further by its listing in Hong Kong. The unique status and international visibility this gives the company is added leverage NagaCorp can use to call on the support of the highest levels of the government if needed to deal with the country's institutional shortcomings.
- The potential for political instability. Cambodia is unlikely to experience serious political instability during the next two years even though there will be local elections this year and national elections next year.
- The economy of Cambodia has been growing rapidly for well over a decade now. The real growth, in term of GDP, has averaged well over 6.8% p.a. between 2000 and 2005. The final figures for last year are not yet available, but all indications are that it was another good year economically with growth probably in excess of 6% (*Source: National Institute of Statistics, Cambodia*).

THE CHALLENGES

- Corruption and weak government institutions. Potential rivals might try to take advantage of these types of systemic deficiencies to gain an advantage.
- Labor issues, including training challenges and a difficulty in using the system to defend against unreasonable labor demands.
- The potential for fallout from adverse political developments in neighboring countries, most notably Thailand, from creating security concerns that hurt the flow of tourists to neighboring countries like Cambodia.
- The potential for social instability. Domestic social conditions are stable and are unlikely to deteriorate, but Cambodia is still hurt by its reputation incurred during the days when the Khmer Rouge were in charge.
- Health and personal security concerns. Media reports focusing on Cambodia's problems like AIDS, inferior sanitation conditions, and crime problems do not generally apply to the conditions that visitors to NagaCorp's facilities are exposed to from the time they get off their plane until they re-board after their visits.

19. LITIGATION

ST group cheating case

A Specialised Tour Group (“ST group”) comprising 20 members won approximately \$2 million during the period from 23 April 2003 to 25 April 2003. Based on the information provided and review of internal security records, the Group believes the ST group may have resorted to cheating in gambling. Therefore, Naga Resorts & Casino Limited (“NRCL”), one of its subsidiaries incorporated in Hong Kong, withheld the money and lodged a report to the Cambodia local court.

NRCL has lodged a report to the Cambodia Ministry of Interior’s Police Headquarters and an order was issued by the police in Cambodia to NRCL to withhold payment of monies to the ST group until their investigations were completed. On 11 June 2003, a charge warrant was issued by the Prosecutor of the Phnom Penh Municipal Court against certain ST group members. On 12 June 2003, the Phnom Penh Municipal Court issued an order temporarily restraining the company from making the \$2 million payment to the ST group until completion of the Phnom Penh Municipal Court’s investigations.

In July 2003, the ST group members obtained a discharge warrant from the Phnom Penh Municipal Court discharging them from the criminal charges, and obtained a further warrant from the Phnom Penh Municipal Court cancelling their earlier order that restrained NRCL from making payment to the ST group. NRCL has filed an appeal in the Cambodia Appeal Court against both warrants.

NRCL has also commenced a civil action in the Phnom Penh Municipal Court against the ST group members in respect of the disputed amount. On 29 August 2003, the Court of Appeal issued a warrant temporarily suspending the requirements of NRCL from paying the \$2 million to the ST group members, pending the judgement of the Cambodia Appeal Court. NRCL has since, on 4 August 2003, received a further demand for the outstanding sum and has been threatened with possible legal action and publicity of the incident.

At this juncture, NRCL has no obligation to pay the withheld money and compensate the ST group for legal costs. However, a provision has been made for the ST group’s winnings as set out in Note 15.

21. RISK MANAGEMENT

Financial risk management objectives and policies

Exposures to political and economic risks, credit, interest rate and currency risk arise in the normal course of the Group's business and the risk are summarised below:

(a) Political and economic risks

The Group's activities are carried out in the Kingdom of Cambodia, a country which, until recently, has had a history of political instability. While the political climate has been more stable in recent years, its political and legal frameworks are still evolving and the economic and legal environments may change significantly in the event of a change of government. Although the Royal Government of Cambodia ("Government") has been pursuing reform policies in recent years, no assurance can be given that the Government will continue to pursue such policies or that such policies may not be significantly altered. There is also no guarantee that the Government's pursuit of reforms will be consistent or effective. Changes in laws on taxation and investment and in policies affecting the industry in which the Group operates could have a significant negative effect on its operating results and financial condition. In this connection, the Group has purchased an insurance policy as a precautionary measure to hedge against these risks.

(b) Credit risk

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requesting credit facility. The Group does not require collateral in respect of financial assets.

At the balance sheet date, there were no significant concentrations of credit risk except that approximately 42% of the outstanding trade receivables is due from four (4) trade customers. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the balance sheets.

(c) Interest rate risk

In respect of income from monetary assets, the effective interest and term are as follows:

	30 June 2007		31 December 2006	
	Effective interest rate %	One year or less \$'000	Effective interest rate %	One year or less \$'000
Fixed term deposits of 7 days or less	5%	50,925	5%	73,461

The Group places deposits with established financial institutions on a short term basis and is only exposed to interest rate fluctuations of the US dollars.

21. RISK MANAGEMENT (continued)

Financial risk management objectives and policies (continued)

(d) Foreign currency risk

The Group's income is principally earned in United States dollars ("US dollars"). The Group's expenditure is principally paid in US dollars and to a lesser extent in Cambodian Riels. The Group does not therefore have significant exposure to foreign currency risk. The Group does not enter into currency hedging transactions since it considers that the cost of such instruments outweigh the potential cost of exchange rate fluctuation.

All financial instruments are carried at amounts not materially different from their fair values at the balance sheet date because of their short term maturities.

22. RELATED PARTY TRANSACTIONS

Significant transactions entered into between the Group, its related companies and controlling shareholder are as follows:

Expenses

	Six months ended 30 June	
	2007 \$'000	2006 \$'000
Travel expenses (<i>note</i>)	60	88

Note: The Group has used a related party for the provision of travel and tour services and hotel accommodation.

23. ULTIMATE CONTROLLING SHAREHOLDER

At 30 June 2007, Tan Sri Dr Chen Lip Keong is interested in 1,391,967,104 ordinary shares of the 2,075,000,000 issued ordinary shares of the Company of which 1,230,769,876 ordinary shares are registered in his name and the remaining 161,197,228 ordinary shares are registered in the name of and beneficially owned by the Cambodian Development Corporation ("CDC"), a company incorporated in the British Virgin Islands.
